

The AWB Crop Insurance portfolio.

Grain is everything to us. That's why we've focused on grain and oil seed farmers for over 50 years. We know how much work goes into looking after a crop, which is why we do all we can to help growers protect it.

Rain, hail, fire or shine, go with AWB Crop Insurance.

AWB Crop Insurance can give you.*

 **Control and flexibility** with the ability to structure a policy that can change with your season.

 **Dedicated local and regional** support with an AWB Representative who will work with you wherever you are.

 **Complete confidence** knowing that you are protected from fire and hail events.

The smarter way to
safeguard your crops.

*This is just a summary. For full details of the cover provided, please refer to AWB's Pre and Post-Harvest Crop Insurance policies.

The cover that's right for your crop.

AWB Crop Insurance includes many items as standard, helping to simplify the decision while improving the value.

Income Protection

Cover against yield loss to your insured crops caused by the direct impact of hail or fire.

Control and Flexibility

With a choice of Pre and Post-Harvest Policies and a range of excess levels, you have the ability to structure a policy that's right for you – reducing the possibility of being over or under insured.

Reducing Excess Offered as Standard

With a Reducing Excess, the excess level reduces when the yield loss on any paddock exceeds 20%, which means you get more money back in your pocket on severe yield loss claims.

Insured Value

You know your crops best, so you'll nominate the value of your crop to be insured.

Local and Regional Support

We know that no two farms are the same. Our AWB Representatives have experience, expertise and area knowledge and can help you when it comes to choosing cover and making a claim.

Range of Other Benefits as Standard

The policy covers most winter and summer broadacre crops and includes a range of other benefits as standard, including replant subsidy, grain in storage and transport, damage to baled hay, chemical overspray and straying livestock (subject to limitations outlined in policy).*

Making the switch is easier than you think.

You may already have automatic temporary cover from another insurer. This cover is not binding on you.

For a no obligation free quote or to sign-up today, follow these simple steps:

1

Talk to your AWB representative

Your AWB Representative will provide a quote based on your requirements, operation and crop.

2

Finalise your policy

Once you've selected the cover that's right for you, your AWB Representative will arrange your insurance cover.

3

You're covered within 48 hours

Once you've signed up, you're covered within 48 hours.
