

# AWB Spring Starter

## 2016/17 AWB Spring Starter: Estimated Pool Return update – 11 May 2017

### Program Update

Despite a fairly flat domestic wheat market and choppy offshore wheat market, we have managed to maintain the equity in the program and therefore our EPR's remain unchanged.

Current EPR's continue to be above average prices over the pricing window and so we feel it's likely we will meet our initial objective.

As we are now in the latter part of the execution window for the Spring Starter program, the focus is predominantly on ensuring we complete final sales, exposures are balanced and costs are reconciled as we work towards finalisation in June.

We will be providing your next update in June.

### Pricing Mandate Update

AWB is committed to transparency and to demonstrate this, we provide a regularly updated pricing position. This exceeds the level of transparency recommended by the Australian Grain Industry Code of Practice, Operating Standard for Grain Pool Providers. The pricing mandate shows the parameters our trading team operate in when making pricing and hedging decisions.
