

Prefer to deal with one party for all your needs?

At AWB, we cover all bases. From high yields and strong returns to end-to-end support, you can trust us to have your back.

The VICTORY[®] Hybrid Canola program puts growers' needs front-and-centre. It uniquely offers a 'one partner approach' to contracting, logistics and grain marketing; empowering growers to reclaim the time and energy lost negotiating multiple moving parts during canola production and sale.

The program now features Clearfield[®] technology, a trusted system for over 12 years in canola, wheat, barley and maize. The program also offers increased flexibility with a selection from three hybrids, a hectare contract, opportunity for deferred seed payment and multiple delivery choices – as well as one team to support you throughout the program. Join a group of growers who are the first link in the supply chain, delivering healthy premium oils for food service and food ingredients customers.

From seed to store, AWB is your one-stop-shop.

**Does your canola production
give you peace of mind?**
