

More cover. Less worry. AWB Crop Insurance.

AWB believe growers just like you, should be able to protect their cropping operations from more perils during more crop stages without having to pay for other covers you don't need. That's why in an agribusiness first, AWB are now offering crop cover add-ons that will protect your crop not only from fire and hail damage, but also from frost, an inability to plant and failed crop emergence due to insufficient soil moisture. It's insurance that gives you peace of mind for more situations.

Crop Establishment Failure

Covers against insufficient soil moisture causing you to be unable to plant into the field you had prepared or your planted crop fails to emerge then you are covered for the actual preparation and establishment costs incurred.

**subject to terms and conditions*

Frost Cover

Covers against yield loss to your insured crops caused by the direct impact of frost.

Fire & Hail Cover

Cover against yield loss to your insured crops caused by the direct impact of hail and fire.

Crop cover like no other

Smarter solutions for
the modern farmer.

The cover that's right for your crop.

Fire & Hail Cover

Control and Flexibility

With a choice of Pre and Post-Harvest Policies and a range of excess levels, you have the ability to structure a policy that's right for you – reducing the possibility of being over or under insured.

Local and Regional Support

We know that no two farms are the same. Our AWB Representatives have experience, expertise and area knowledge and can help you when it comes to choosing cover and making a claim.

Reducing Excess as Standard

With a Reducing Excess, the excess level reduces when the yield loss on any paddock exceeds 20%, which means you get more money back in your pocket on severe yield loss claims.

Crop Establishment Cover

You're covered for the actual preparation and establishment costs incurred when:

The field in which you intended to plant a crop has insufficient soil moisture to successfully establish the crop.

The crop you planted into a dry seed bed does not receive sufficient and or timely follow up rain and due to insufficient soil moisture, the crop is no longer viable or fails. **subject to terms and conditions*

Crop Establishment Failure cover forms part of your 2018 Fire and Hail policy and will cover you for your 2019 winter broadacre crop.

Frost Cover

What you're covered for:

Covers against yield loss to your insured wheat, barley and canola crops caused by the direct impact of frost.

You know your crops best, so you can nominate the level of frost cover to be insured. **subject to terms and conditions*

Getting a quote for the extra add-on covers is easier than you think.

Follow these 3 steps to get a quote for Fire & Hail, Frost and Crop Establishment Failure Cover.

1

Talk to your AWB representative

Your AWB Representative will provide you a fire and hail quote based on your requirements, operation and crop.

2

Add Frost or Crop Establishment Failure

You'll also automatically be provided a Frost and Crop Establishment Failure quote. Simply adjust the cover to suit your requirements.

3

You're covered within 48 hours

When you're ready to sign up, you can simply add cover for frost or crop establishment failure to your standard fire and hail quote*. Once you've signed up, you're covered within 48 hours for fire and hail and within 7 days for Frost cover. **terms and conditions apply.*
